

Hello. It's Bomi Eom. I am from South Korea and now a first year Master student in Human Resources and Labor Relations Program in College of Social Science at MSU. A little about me, I did undergraduate studies in Business Management and Counseling Psychology in S. Korea, and I worked as a recruiter and a sales analyst for several years after graduation. In my free time, I enjoy working out, doing yoga, watching TV shows and movies, cooking, and traveling with my Husband.

While I was an undergraduate student, experiences in participating in cultural exchange programs abroad and volunteering in language exchange programs inspired me to learn more about immersion in language and culture. Therefore, I would like to work and share with you about Korean culture and language throughout the 2017-2018 year!
