*Presented by Dr. Rondee Gaines
Communications Faculty,
New York City College of Technology*

Dr. Gaines will use womanist self-reflexivity to explore ways to cultivate wholeness, well-being, and survival, during times of crisis, such as the COVID-19 pandemic in 2020 and 2021.

Womanist ways of living focus on (re)covering and (re)situating African American women, as well as all people, in a collective history, expanding our tradition, and articulating the brilliance of “everydayness.”
